## **A whole school approach**

We believe that every child needs to feel that they belong, that they matter, and that they are valued for their unique qualities. Our approach uses the following principles:

- All behaviour is communication – we need to understand what the children are trying to tell us, why and help them to manage their emotional responses in a socially acceptable way.
- We are firm but fair – there are clear consequences for actions but there is always time for calming and reflection.
- We are consistent in our application of the behaviour policy and in recognising those children that need additional support and encouragement.
- Developing positive and rewarding relationships is the key to successful.
- Our school values are at the heart of all that we do and all that we say.
