

**I am a Reader...**

*I am a reader. I can decipher the written code in texts of varying length and complexity; I can take meaning from the texts that I read; when I read I read with fluency, intonation and at an appropriate pace. Reading enables me to make more sense of the world around me, it broadens my knowledge, widens my vocabulary and ignites my imagination. Reading gives me the power to develop myself as an individual and as a part of society.*

At Frome Vale Academy, we celebrate reading across all years and see it as one of the main foundations in a child's learning. In addition to this, we see that both fluency and enjoyment in reading are an integral part of a child's academic progress and success. We value reading as a key life skill, and are dedicated to enabling our pupils to become lifelong readers.

At Frome Vale Academy it is our intention that our reading curriculum covers the key skills needed to become a great reader - understanding inference, retrieval of information, authorial intent, understanding of text layout to name a few. We put a high level of thought into the range of texts our children read, both within guided reading sessions and as independent readers, as our school encourages the use of a wide range of exciting and interesting vocabulary to develop our children's understanding and communication skills. The curriculum aims to provide reading opportunities (fiction and non-fiction) linked to topic learning in all year groups.

Hollis Scarborough—creator of the famous Reading Rope and senior scientist at Haskins Laboratories—is a leading researcher of early language development and its connection to later literacy. The genesis of the Reading Rope dates back to Scarborough’s lectures for parents on the complexities involved in learning to read. The Reading Rope consists of lower and upper strands. The word-recognition strands (phonological awareness, decoding, and sight recognition of familiar words) work together as the reader becomes accurate, fluent, and increasingly automatic with repetition and practice. Concurrently, the language-comprehension strands (background knowledge, vocabulary, language structures, verbal reasoning, and literacy knowledge) reinforce one another and then weave together with the word-recognition strands to produce a skilled reader.

The strands within the reading rope have formed the basis of this reading progression document.

**What is reading?**

*Reading is the action or skill of deciphering words and symbols and making meaning of them. Our brains convert these words and relate them to the world we may have experienced, learned about or imagined.*

*Humans have been reading for only around 5000 years, a sliver of our evolutionary history. The origins of humans learning to read dates back to when humans first began to write when the purpose of writing was to make records for others to understand.*

*Reading is the process of looking at a series of written symbols and getting meaning from them. When we read, we use our eyes to receive written symbols (letters, punctuation marks and spaces) and we use our brain to convert them into words, sentences and paragraphs that*

**Background Knowledge:** A person's background knowledge, often called prior knowledge, is a collection of "abstracted residue" (Schallert, 2002, p. 557) that has been formed from all of life's experiences. We all, whether as a toddler or a centenarian, bring diverse bits of background knowledge—consciously or subconsciously—to every subsequent experience, and we use them to connect or glue new information to old. Background knowledge is an essential component in learning because it helps us make sense of new ideas and experiences.<sup>1</sup>

**Vocabulary:** Vocabulary is the knowledge of words and word meanings. As Steven Stahl (2005) puts it, "Vocabulary knowledge is knowledge; the knowledge of a word not only implies a definition, but also implies how that word fits into the world." Vocabulary knowledge is not something that can ever be fully mastered; it is something that expands and deepens over the course of a lifetime. Instruction in vocabulary involves far more than looking up words in a dictionary and using the words in a sentence. Vocabulary is acquired incidentally through indirect exposure to words and intentionally through explicit instruction in specific words and word-learning strategies. According to Michael Graves (2000), there are four components of an effective vocabulary program:

1. wide or extensive independent reading to expand word knowledge
2. instruction in specific words to enhance comprehension of texts containing those words
3. instruction in independent word-learning strategies, and
4. word consciousness and word-play activities to motivate and enhance learning<sup>2</sup>

**Language structures:** A reader needs at least an implicit understanding of how language is structured, that is, grammar. The child reader needs to 'hear' their reading voice, whether this is in their head (silent reading) or out loud, they need to be able to hear whether their reading has made sense, they need to ask themselves whether their reading sounds right.

**Verbal reasoning / comprehension:** Readers need to be able to make inferences and construct meanings from the text: that is, they need to be able to THINK logically about what they read in they are to understand it, and its implications.<sup>3</sup> Readers who struggle with phonemic awareness will find it challenging to understand much of what they are 'reading' without support. The

<p><i>communicate something to us.</i></p> <p><i>Reading can be silent (in our head) or aloud (so that other people can hear).</i></p> <p><i>Reading is a receptive skill - through it we receive information. But the complex process of reading also requires the skill of speaking, so that we can pronounce the words that we read. In this sense, reading is also a productive skill in that we are both receiving information and transmitting it (even if only to ourselves).</i></p>	<p>reading habit of considering the context of what is being read needs to be carefully built up over time, as the reader's knowledge of phonics and language structures develops, so too will their ability to monitor the meaning of what they are reading.</p>
	<p><b>Literacy Knowledge:</b> it is important for child readers to understand concepts of print such as reading from left to right and top to bottom, how to hold a book, and that full stops complete one sentence (unit of meaning) before the text moves on<sup>3</sup>. Opportunities for pupils to access a wide range of genres is key to the development of their literacy knowledge, increasing their awareness of and ability to read and comprehend fiction, non-fiction, poetry, play scripts etc will give them a broad and balanced reading experience that develops in complexity as their ability to read develops.</p>
	<p><b>Phonological awareness:</b> Phonemic awareness refers to the specific ability to focus on and manipulate individual sounds (phonemes) in spoken words. Phonemes are the smallest units comprising spoken language. Phonemes combine to form syllables and words. Phonological awareness is a broad skill that includes identifying and manipulating units of oral language – parts such as words, syllables, and onsets and rimes. Children who have phonological awareness are able to identify and make oral rhymes, can clap out the number of syllables in a word, and can recognize words with the same initial sounds like 'money' and 'mother.'<sup>4</sup></p>
	<p><b>Decoding:</b> Decoding is the ability to apply your knowledge of letter-sound relationships, including knowledge of letter patterns, to correctly pronounce written words. Understanding these relationships gives children the ability to recognize familiar words quickly and to figure out words they haven't seen before. Phonics is one approach to reading instruction that teaches students the principles of letter-sound relationships, how to sound out words, and exceptions to the principles.<sup>5</sup></p> <p><b>Sight recognition:</b> Technically speaking, the term "sight word" refers to any word an individual can read as a whole word, without sounding it out. High frequency words are words that commonly occur in print. Because high frequency words appear repeatedly in texts, it is important for students to recognize these words with automaticity. These words then become "sight words" for the individual.</p> <p>Sight word recognition of high frequency words is important because it increases fluency and allows the reader to focus upon the decoding of more complex words. As students become more fluent with decoding and sight word recognition, they are better able to focus on comprehending the text.<sup>6</sup></p>

### Key Concepts for Readers

What makes a good reader?	Key Concepts and Skills	Year	Context (The Wider Curriculum and Class Texts)
<p>A good reader reads fluently, progressing from individual word decoding to automaticity -fast, accurate and effortless word identification. The ability to read words rapidly and accurately allows to focus on understanding of the text – the ultimate goal of reading.</p> <p>A good reader establishes a purpose for reading. What do I already <b>know</b>? What do I <b>want</b> to know? A good reader can identify the structure of the text. A good reader monitors his own reading to ensure comprehension and applies strategies to repair any misunderstanding.</p> <p>A good reader will reread, identify the unfamiliar phrase or word or ask a question to help them interpret the meaning. A good reader creates mental notes and summarizes while reading. They can recall the main character’s dilemma at the beginning of the story.</p> <p>A good reader makes predictions, which gets them actively involved in what they are reading. - Recognise and understand the structure of the non-fiction texts used
- Use titles, headings, pictures and blurbs to locate relevant information
- Identify how presentation contributes to meaning

**Language Structures**

- Recite poems by heart, using intonation to make the meaning clear e.g. The Sound Collector (Roger McGough) Walking With My Iguana (Brian Moses) Daddy Fell into the Pond (Noyes)
- Check that the text makes sense to them as they read and correct inaccurate reading
- Re-tell stories using relevant story/grammatical structures

**Verbal Reasoning**

- Discuss their understanding of stories, poems and non-fiction at a level beyond which they can read independently
- Predict what may happen on the basis of what has been read so far e.g. I think mum will get cross because she told Tom not to lie again
- Make predictions based on their wider reading
- Make inferences based on a single point of reference about characters' feelings, thoughts and actions e.g. I think something bad will happen to Hansel and Gretel because they've been left on their own
- List key information orally or through text marking (highlighting/underlining) in response to teachers' questions
- Express a single point of view about a text
- Participate in discussion about books, poems and other works that are read to them and those that they can read for themselves, taking turns and listening to what others say

<p><b>Enjoyment and book choices</b></p>				

Read aloud and perform play scripts, maintaining the audience's interest in the characters and plot e.g. using stage directions, appropriate intonation, pace and action for the type of play

**Verbal Reasoning**

- Discuss their understanding of both texts they have read independently and those read to them (see range).
- Predict what may happen based on what has been implied e.g. I think mum will get cross because she's worried Tom may get into trouble
- Draw inferences about characters' feelings, thoughts and actions and motives based on different reference points e.g. I think Leon volunteers because he wants to prove that magic is real and he wants to see where the magic takes you
- Justify inferences with several pieces of evidence from the text to support one specific point
- Ask specific questions to improve their thoughts about a text; explanations and understanding of language e.g. did Tom do that because he wanted to win the match? How did he escape from the cave? What does that word mean?
- Identify the author's message about the theme e.g. being honest is the best way to be; it's ok to lie when you need to
- Explain their views, listen to others' views and respond
- Explain how words and phrases capture the reader's interest and imagination and how they contribute to the meaning of the text e.g. the author's used powerful verbs like: twisting and turning, tumbled, pounding, spun, which give you an idea about how fast and exciting the acrobats are.
- Summarise ideas from across several paragraphs or sections e.g. how a character's fear is portrayed across several paragraphs, identifying the subject of each paragraph in a non-chronological report

awareness of the audience

Fluency in age-appropriate texts: 450 words in five minutes with sustained reading stamina and expression, including Y5 punctuation

-Discrete teaching of skimming and scanning to locate information efficiently across a range of sources

-Identify the structural conventions of non-fiction in relation to the text type

-Identify how the structure and presentation of texts contributes to the meaning e.g. graphic novels; stories told from two viewpoints; the order and presentation of points in an argument

#### **Language Structures**

Recite poems by heart, using intonation, tone and volume to monitor the interest of the listener and adapt their recital e.g. Night Mail (Auden) The Highwayman (Noyes).

Read aloud and perform play scripts, monitoring the audience's interest and changing the performance accordingly e.g. consistent use of intonation, pace and action for the characters and type of play

#### **Verbal Reasoning**

-Discuss their understanding of both texts they have read independently and those read to them (see range)

-Predict what may happen based on their understanding of the context and the themes within the text (e.g. I think Rose will die because the soldiers are nervous and likely to shoot at anything)

-Draw inferences from across the chapter or text about themes and characters' and authors' viewpoints e.g. Tom is scared to move because he doesn't pack; he leaves his favourite toy behind on purpose and he's always nervous

-Justify inferences and views with a variety of references from across the text

-Ask relevant questions to improve their wider understanding of a text, topic or theme e.g. Why does Michael become friends with Kensuke? (Kensuke's Kingdom) What was it like to be a child in Victorian times? Why has the author used lots of short sentences?

-Identify an author's treatment of the same theme across one or several of their books/poems e.g. Michael Morpurgo's treatment of WWII

-Explain and develop their own views and build effectively on those of others

-Evaluate how authors use language to impact the reader e.g. use of repetition for effect; the author's used the metaphor 'his face was a grey cloud,' which helps you to imagine his sadness

-Summarise ideas, events and information from the text as a whole e.g. the author's viewpoint about a particular issue

-Distinguish between fact and opinion
