

Year 2 Term 5

Year 2

Dear parents, carers and pupils. I hope that you are all well and staying safe, and have been able to access the online learning successfully.

This term, we will be revisiting learning to consolidate the children’s understanding of the topics that have been taught in school.

Mathematics

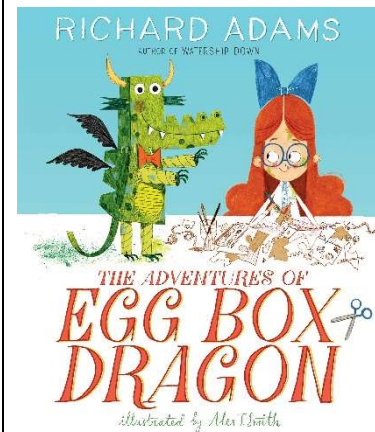

We will begin this term by revisiting learning money. This will involve understanding the value of different coins and notes, recognising and using symbols for pounds and pence, combining amounts to make a particular value and finding different combinations of coins that equal the same amounts of money.

We will also be revisiting multiplication and division. This learning will be supported through opportunities which allow fluency, reasoning and problem solving.

Writing

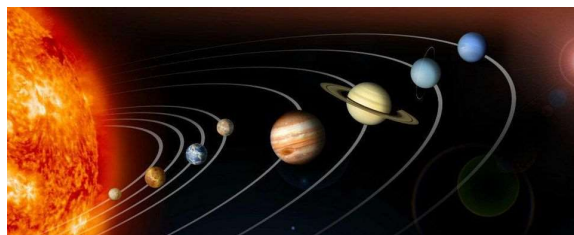

This term we will be looking at a new book called ‘The Adventures of the Egg Box Dragon’.

The children will have the opportunity to revisit learning writing: a diary entry, a non-chronological report, instruction and a character description.

Science

This term, we will continue learning about the solar system including the 8 planets and the sun.

History

This term, we will continue learning about the Great Fire of London. This will include learning about London and firefighting in the 17th century and looking at how they have changed since the GFOL, the design and materials of houses and buildings in the 17th century and the events that took place during this time.
