

Hello Year 6,

Easter Letter.

Mrs Pakrooh here! I hope you are all well and that you are managing your time and boredom well during the lockdown?

If you want to send me an email with a question or a message, you can contact me on the school email - just make sure that you make it clear it is for me so the office know to forward it to me. I know it can be a bit challenging to be cooped up in the house all the time, remember to try and get some exercise. At home, we have been doing the Joe Wicks work out, though I can't really do the jumping bit at the moment! If any of you are doing it too, we could send a 'Shout Out' to each other. We have also been watching some great Science videos on You tube, they have got some really great stuff on there, we very like Operation Ouch!

I have sent you some work to do over Easter, some maths and History/English activities based around our History topic of Stone Age to Iron Age. I tried to make it fun and I have included some games and activities. I hope you have a go at doing some of the activities, see if you can get a sibling or adult to do some the activities with you but there is also plenty of opportunity to do some independent research.

Remember to carry on reading as much as possible. In the 'Reading Folder' I have posted a link to a website called Readon.Myon.co.uk. Make sure you take a look, my kids have enjoyed the Weird and Weirder category of books. You can post reviews afterward you have read a book.

I have also posted some projects in the Art folder, there are a range of Art and DT activity packs. One of them is trying to re-create famous buildings and landmarks with materials you can find around the house; the other is trying to recreate famous paintings. If you follow the instructions closely you could produce some excellent pieces. If you create anything you are proud of, please take a photo and email it to the office.

I hope you are getting the chance to spend some time doing activities, that you would not normally get time to do, with members of your family. We have a hedgehog in our garden and we have built him a little wooden home. We have also been playing chess and Sudoku - drawing, gardening and baking could be good fun too.

Take care,

Mrs Pakrooh
